TO OUR CUSTOMERS

We realize the varied and perplexing problems that our many customers are compelled to meet during the present unusual and extraordinary economic conditions. We are endeavoring to do our part in meeting this situation by greatly reducing prices this season on almost our entire line of Seeds.

Our overhead in sales and service has been greatly reduced thus helping to meet the situation; however, we want to assure our many friends and customers that we are carefully guarding and rigidly maintaining our long established reputation for high grade, dependable quality, which is so vitally important in the purchasing of Seed requirements. We have also endeavored to further cooperate with our trade in supplying a 5c packet to meet present needs.

There are Seeds that can be sold at lower prices, but there are none of higher quality, for we secure Seed of the highest quality and best germination obtainable coming from the most reliable Seed growers, having been grown under careful supervision. We offer the varieties that have been found to produce most desirable and profitable results in this locality.
